

# iAnthus + **Be.**

---

The health and wellness of our patients and dispensary agents remains the utmost importance to us. As Coronavirus (COVID-19) continues to be a serious concern for our communities and cities, we would like to assure you that we are following the recommended guidance and precautions from national, state and local health agencies to minimize the risk of exposure.

With the safety of the public in mind, we have decided to postpone the grand opening event for **Be.** Staten Island, scheduled for March 26th, until further notice. While **Be.** Staten Island's doors will remain open, we will be taking measures to limit the number of patients in store.

We ask that everyone adhere to state and federal government directives, and to follow procedures set forth by the CDC and WHO to minimize the spread of COVID-19. If you have any questions regarding our dispensary operations in response to COVID-19, please contact [info@ianthuscapital.com](mailto:info@ianthuscapital.com), and be sure to check back here for updates on rescheduling.
